

Table of Contents

1. Overview	1
2. How to Use This Guide	3
3. National Science Education Standards	4
4. Math Connections	6
5. Thinking Skills	7
6. Background	
The Ares Launch Vehicles	8
Spacecraft Structures	9
7. Teacher Preparation	
Required Materials	13
Build the Launcher	15
Build the Rockets	17
Practice Launching a Rocket	17
Prepare the Materials for the Classroom	18
Teaching Strategies for an Engineering Design Challenge	19
Helping Students Understand the Design Process	21
8. Classroom Sessions	
Session 1: Introducing the Challenge and Getting Started	22
Session 2: Design 1	27
Session 3 and 4: Designs 2, 3, 4, and 5	31
Session 5: Construct a Storyboard/Poster	34
Session 6: Student Presentations	36
Linking Design Strategies and Observations to Science Concepts	37
9. Modifications and Extensions	44
10. Resources	46
11. Masters	49
Flier for Parents	
Handouts/Transparencies	
Recording Sheets
